Introducing the Sparkyard Music Curriculum...

Singing and music are an essential part of any primary curriculum, and it is within the capability of *every* teacher in *every* school to deliver **great music lessons**.

The **Sparkyard Music Curriculum** provides teachers with a **clear sequence of musical activities** to use in the primary classroom. With **fabulous Out of the Ark songs at its heart**, it uses a **skills-based approach** where key musical concepts and themes are developed and revisited across the year groups, building on knowledge and understanding at every stage.

Each term is organized into **progressive steps** and within each step you will find a selection of fun, inspiring lessons to **choose from**. You don't have to complete every lesson in every step: simply choose the ones that suit you. Our helpful curriculum overviews will provide you with a summary of the key learning in each term, allowing you to start planning a sequence of exciting lessons for your class straight away. Our music curriculum covers the statutory National Curriculum for England and satisfies a wealth of suggestions made in the Model Music Curriculum.

We've worked hard to create a curriculum that offers **flexibility and choice**. You know your classes better than we do, so whether you choose to follow the curriculum step by step, or use your own knowledge to adapt lessons, remember that the overriding goal should be to foster a lasting love of music and enjoyment in singing.

Sparkyard lesson plans include:

- Simple, easy-to-follow steps
- Fabulous songs
- Assessment suggestions
- Listening examples from a diverse range of genres, styles and musical periods

Skills Overview:

The Sparkyard Music Curriculum for Y1 enables children to develop a range of skills in singing, playing, listening, composing, improvising and exploring notation. The 'at a glance' table identifies termly coverage, and you will see that many skills are revisited across the course of the year.

Use these statements to build a picture of the musical learning in your class. Not only can they aid your planning, but they can also give you some ideas of the things to look out for when your class are engaged in any kind of musical activity.

It is also important to recognise that musical learning takes place both in and outside the classroom. We know that musical learning will be strengthened through regular opportunities to practise and celebrate music making with others so in Y1 we recommend that children:

- Revisit songs and musical activities throughout the week
- Perform songs to other classes or in assemblies each term
- Share and practise songs at home using the Sparkyard share link.

Skills Overview:

The Sparkyard Music Curriculum for Y4 enables children to develop a range of skills in singing, playing, listening, composing, improvising and exploring notation. The 'at a glance' table identifies termly coverage, and you will see that many skills are revisited across the course of the year.

Use these statements to build a picture of the musical learning in your class. Not only can they aid your planning, but they can also give you some ideas of the things to look out for when your class are engaged in any kind of musical activity.

Becoming a musician, even simply learning to engage actively with music, means nurturing a range of positive behaviours. These behaviours are central to almost every lesson in Y4 and you can aim for your class to:

- Explore and perform a widening range of appropriate songs as a class
- Work collaboratively as a class and in small groups, trying out musical ideas
- Suggest improvements for own and others work
- Explore different musical roles (performer, audience, conductor, ensemble)
- Talk about music, expressing preferences

It is also important to recognise that musical learning takes place both in and outside the classroom. We know that musical learning will be strengthened through regular opportunities to practise and celebrate music making with others so in Y4 we recommend that children:

- Revisit songs and musical activities throughout the week
- Perform as a class or small group in assemblies or concerts each term
- Share and practise songs at home using the Sparkyard share link.

** This skill isn't mentioned in every lesson because performing to an audience doesn't always have to involve a hall of parents! Get the class performing to each other on a regular basis or how about an Impromptu performance of the song they are working on the school playground. Singing and sharing musical learning with another class is a great way to develop musicianship and get your class working and thinking like performers!

*You can develop this skill when learning any of our songs. Take advantage of the double-click feature on our WOS player, double-click a line and get the class to sing it back!

** This skill isn't mentioned in every lesson because performing to an audience doesn't always have to involve a hall of parents! Get the class performing to each other on a regular basis or how about an Impromptu performance of the song they are working on the school playground. Singing and sharing musical learning with another class is a great way to develop musicianship and get your class working and thinking like performers!
